

Appendix A Registering Domain Names

DDNS (Dynamic Domain Name Service) is a data query service mainly used on the Internet for translating domain names into Internet addresses. It allows remote clients to intelligently search dynamic servers without any previous enquiring for servers' Internet addresses.

In order to take advantage of this intelligent service, first register your domain name on the following Web site: <http://ddns.avers.com.tw>.

1. User Login

Browse the website ddns.avers.com.tw with Microsoft IE or Netscape Navigator to access the following dialog.

The image shows a 'User Login' dialog box with a blue header and light blue body. It contains a text input field for 'Serial No.', a dropdown menu for 'Product' with 'DX7000' selected, and two buttons: 'OK' and 'Reset'.

First input the serial number of your product and select the product name. Then click **OK** to login or **Reset** to clear the previous input.

2. Password

Set a password to secure your identification.

The image shows an 'Input your password' dialog box with a blue header and light blue body. It contains a text input field for 'Password' with a cursor and two buttons: 'OK' and 'Reset'.

3. User Information

Please provide the following user information, **Host Name**, **Password**, **E-mail**, **Company**, and **Country** to complete the registration process.

Note that Host Name and Domain Name

(AVerMedia.avers.com.tw) are the replacement for Internet address while a remote client tends to search a dynamic server.

The image shows a registration form titled "User Information" with a blue header. The form contains the following fields and controls:

- Host Name:** Text input field containing "AVerMedia" with a red asterisk to its right.
- Domain Name:** Text input field containing "avers.com.tw".
- Password:** Password input field with masked characters and a red asterisk to its right.
- Confirm Password:** Password input field with masked characters and a red asterisk to its right.
- E_mail:** Text input field containing "odysseus@ms1.url.cor" with a red asterisk to its right.
- Company:** Text input field containing "AVerMedia".
- Country:** Dropdown menu with "Taiwan" selected.
- Buttons:** "OK" and "Reset" buttons at the bottom.
